|                        |                                  | <p>(ii) Segregating distance as required under these Regulations shall be provided within the lands intended to be used for residential/commercial uses.</p> <p>(iii) The owner of the land will be entitled for the FSI as per the Regulation No 30(A) (1) and (4), excluding area of notional plot of residential buildings/chawls located on the lands of Cotton Textile Mills if any.</p> <p>(iv) Where FSI is in balance but open land is not available, for the purposes of column (3) and (4) of the above Table, land will be made open by demolishing the existing structures to the extent necessary and made available accordingly.</p> <p>(v) Where the lands accruing as per Columns (3) &amp; (4) are, in the opinion of the Commissioner, of such small sizes that they do not admit of separate specific uses provided for in the said columns, he may, earmark the said lands for use as provided in Column (3); the commissioner may allow any other POS Lands for any Mills received as Municipal Corporation of Greater Mumbai's share of Mill land as per column no. (3), to be earmarked for MHADA in exchange of such plots, for using as per column no. (4), special permission of Commissioner.</p> <p>(vi) It shall be permissible for the owners of the land to submit a composite scheme for the development or redevelopment of lands of different cotton textile mills, whether under different/common ownership or otherwise, upon which the lands comprised in the integrated scheme shall be considered by the Commissioner in an integrated manner. The land to be handed over as per column no (3) and (4) shall be preferably handed over in the respective land of mills. Provided further that where owner intends to hand over the share of land as per column no (3) and (4) at other mill within the integrated scheme having different stamp duty ready reckoner rate then area to be handed over shall be in proportion to the stamp duty ready reckoner rate of these lands of mills.</p> <p>(vii) Notwithstanding anything above, the layout of mill land shall be submitted by the mill owner within six months of closure of the mill or within six months from sanction of these Regulations whichever is later and the lands earmarked for MHADA &amp; POS shall be handed over to the concerned Authority within six months after the approval of layout and such period of handing over shall not be more than six months.</p> |                                                                                 |                                                                                          |                                                                                           |

|                                  |                                           | <p>space under the provision of these regulations provided clear distance of 3.0 m between plot boundary/edge of road and basement line is maintained. The open spaces from the other boundaries of the plot except front open space shall not be less than 1.5 m. Basement may be at one level or more.</p> <p>(ii) Height- The height of the basement from the floor to the underside of the roof-slab or ceiling or under side of a beam when the basement has a beam shall not be less than 2.4 m. The height of basement below soffit of the slab shall not be more than 3.9 m In case of mechanical parking more height as per the requirement may be allowed.</p> <p>(iii) Ventilation- The extent of ventilation shall be the same as required by the particular occupancy</p> | <p>regulations provided clear distance of 3.0 m between plot boundary/edge of road and basement line is maintained. The open spaces from the other boundaries of the plot except front open space shall not be less than 1.5 m. Basement may be at one level or more.</p> <p>(ii) Height- The height of the basement from the floor to the underside of the roof-slab or ceiling or under side of a beam when the basement has a beam shall not be less than 2.4 m. The height of basement below soffit of the slab shall not be more than 3.9 m. In case of mechanical parking more height as per the requirement may be allowed.</p> <p>(iii) Ventilation- The extent of ventilation shall be the same as required by the particular occupancy for which the basement is used. Any deficiency must be made good by resort to a mechanical system, viz. blowers, exhaust fans, air-conditioning system, according to the standards in Part VIII Building Services Section I-Lighting and Ventilation,</p> | <p>required front open space under the provision of these regulations provided clear distance of 3.0 m between plot boundary/edge of road and basement line is maintained. The open spaces from the other boundaries of the plot except front open space shall not be less than 1.5 m. Basement may be at one level or more.</p> <p>(ii) Height- The height of the basement from the floor to the underside of the roof-slab or ceiling or under side of a beam when the basement has a beam shall not be less than 2.4 m. The height of basement below soffit of the slab shall not be more than 3.9 m. In case of mechanical parking more height as per the requirement may be allowed.</p> | <p>(i) The basement may be allowed to be constructed beyond building line in the required front open space under the provision of these regulations provided clear distance of 3.0 m between plot boundary/edge of road and basement line is maintained. The open spaces from the other boundaries of the plot except front open space shall not be less than 1.5 m. Basement may be at one level or more.</p> <p>Provided further that if total depth of basements exceed beyond 8.4 m then the open spaces from the boundaries of the plot shall be increased by 1.5 m for every 8.4 m or fraction thereof beyond the open spaces as described above.</p> |

|                        |                                  | C. Scope for Changes – No interventions would be permitted either on the exterior or interior unless it is necessary in the interest of strengthening and prolonging the life of the buildings or precincts or any part or features thereof. For this purpose, absolutely essential and minimum changes would be allowed and they must be in accordance with the original. | <p>Scope for development --- Grade - II A: In addition to the scope for development permissible for Grade –I, internal changes, and adaptive reuse may be generally allowed. In certain circumstances, extension of a Grade - IIA heritage building may also be allowed; provided that such extension shall be in harmony with (and shall not detract from) the Grade - II A heritage building concerned or precinct, especially in terms of height and/or façade. External changes too may be permitted, subject to strict scrutiny. Care should be taken to ensure the conservation of all special aspects/features of Grade – II A building concerned.</p> <p>Grade –II(B):<br/>In addition to above, additional building(s) in the same plot or compound may, in certain circumstances, be allowed; provided that, such additional building(s) shall be in harmony with (and shall not detract from) the Grade-II B heritage building(s) or</p> | <p>External and internal changes and adaptive reuse would generally be allowed. Changes can include extensions / additional buildings in the same plot or compound provided that extension / additional building is in harmony with and does not detract from the existing heritage building / precincts especially in terms of height and/or facade. Reconstruction may be allowed when the building is structurally weak or unsafe or when it has been affected by accidental fire or any other calamity or if reconstruction is required to consume the permissible FSI and no option other than reconstruction is available.</p> <p>Reconstruction/ Redevelopment may also be allowed with the special permission from the Commissioner, Municipal Corporation of Greater Mumbai, if the height of the building to be reconstructed/redeveloped exceeds 32.0 m.</p> <p>Reconstruction may be allowed in those buildings being</p> |                                                                                           |

                                                                                                                                                                                                                                                                                                 |  |
| <p>A. Definition –</p> <p>Heritage Grade – I comprises buildings, and <b>sites</b> of national or historical importance, embodying excellence in architectural style, design, technology and material usage; they may be associated with a great historical event, personality, movement or institution. <b>It may also comprise natural sites of heritage value eg. Waterfronts, creeks, mangroves, Hillocks, forest lands, open spaces, etc.</b> They have been and are the prime landmarks of the City.</p> <p><b>Vista of Grade I :</b></p> <p><b>An area within 100 m. Periphery or as may be delineated on plan by the Municipal Commissioner in consultation with MHCC shall be considered as the vista of a Grade – I structure/entry.</b></p> | <p>A. Definition –</p> <p>Heritage Grade - II comprises building/ precincts, of regional or local importance, possessing special architectural or aesthetical merit or cultural or historical value, though of a lower order than that of Heritage Grade - I. They are local landmarks contributing to the image and identity of the city. They may be the work of master craftsmen or may be models of proportion and ornamentation, or designed to suit particular climate.</p> <p>Heritage Grade - II buildings within the premises (open space/compound) of which independent/separate additional building(s) /structure(s) may be permitted to be constructed, owing to the availability of adequate surrounding open</p> | <p>A. Definition –</p> <p><b>Grade – III</b></p> <p>Heritage Grade -III Comprises buildings and precincts of importance for townscape, they evoke architectural aesthetic or sociological interest though not as much as in Heritage Grade – II. These contribute to determine the character of the locality, and can be representative of a life style or a particular community or region and may also be distinguished by setting on a street line or special character of the façade and uniformity of height, width and scale.</p> <p><b>PRECINCT</b></p> <p><b>A. Definition –</b></p> <p><b>A heritage precinct is an area of heritage value and cultural significance. Such area within a specified boundary may possess</b></p>                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                    |                                                                                 |                                                                                         |                                                                                          |            |                      |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                        |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                          |  |

|                        |                                  | <p>C. Scope for Changes – i) No interventions would be permitted either on the exterior or interior unless it is necessary in the interest of strengthening and prolonging the life of the buildings or any part or features thereof. For this purpose, absolutely essential and minimum changes would be allowed and they must be in accordance with the original.</p> <p>Repairs shall follow conservation norms based on proven standards with use of like to like or similar material.</p> <p>ii) Additional buildings / new interventions in a Grade-I complex shall be permitted only if the development does not mar the grandeur, scale, setting and view of the main Grade-I structure and the new development is in harmony with the main heritage structure.</p> <p>iii) Development in surrounding area/vista :</p> <p>All the development (excluding repairs) in the vista</p> | <p>Scope for development ---Grade - II A: In addition to the scope for development permissible for Grade –I, internal changes, and adaptive reuse may be generally allowed. In certain circumstances, extension of a Grade - IIA heritage building may also be allowed; provided that such extension shall be in harmony with (and shall not detract from) the Grade - II A heritage building concerned or precinct, especially in terms of height and/or façade. External changes too may be permitted, subject to strict scrutiny. Care should be taken to ensure the conservation of all special aspects/features of Grade – II A building concerned.</p> <p>Grade –II(B):</p> <p>In addition to above, additional building(s) in the same plot or compound may, in certain circumstances, be allowed; provided that, such additional building(s) shall be in harmony with (and shall not detract from) the Grade-II B heritage building(s) or precinct, especially in terms of height</p> | <p><b>Grade – III</b></p> <p>External and internal changes and adaptive reuse would generally be allowed. Changes can include extensions / additional buildings in the same plot or compound provided that extension / additional building is in harmony with and does not detract from the existing heritage building / precincts especially in terms of height and/or facade.</p> <p>ii) Reconstruction / redevelopment shall be allowed with the permission of Commissioner as detailed below.</p> <p><b>PRECINCT</b></p> <p>i) Sensitive additions, alterations, extensions, interior renovations shall be permissible but these should not alter the character of the precinct. The new interventions could be contemporary but subtle or inspired by the original character but should not be a pastiche/ tasteless imitation of it.</p> <p>ii) Essential structural and non-</p> |                                                                                           |

|                        |                                  | <p>associated with a great historical event, personality, movement or institution. It may also comprise natural sites of heritage value eg. Waterfronts, creeks, mangroves, Hillocks, forest lands, open spaces, etc. They have been and are the prime landmarks of the City.</p> <p><b>Vista of Grade I :</b><br/>An area within 100 m. Periphery or as may be delineated on plan by the Municipal Commissioner in consultation with MHCC shall be considered as the vista of a Grade – I structure/entry.</p> | <p>than that of Heritage Grade - I. They are local landmarks contributing to the image and identity of the city. They may be the work of master craftsmen or may be models of proportion and ornamentation, or designed to suit particular climate.</p> <p>Heritage Grade - II buildings within the premises (open space/compound) of which independent/separate additional building(s) /structure(s) may be permitted to be constructed, owing to the availability of adequate surrounding open space and unconsumed FSI, have been assigned Grade-IIB. The remaining Grade- II buildings have been assigned Grade –IIA.</p> | <p>in Heritage Grade – II. These contribute to determine the character of the locality, and can be representative of a life style or a particular community or region and may also be distinguished by setting on a street line or special character of the façade and uniformity of height, width and scale.</p> <p><b>PRECINCT</b><br/><b>A. Definition –</b><br/>A heritage precinct is an area of heritage value and cultural significance. Such area within a specified boundary may possess a setting reminiscent of significant urban landscape / townscape attributes and comprising a number of buildings and spaces, within a structure of streets / roads and other landscapes and qualifies to have cultural or heritage significance worthy of recognition and conservation. Such area espouses special quality of cohesiveness (mass, scale, style, architecture etc.) between its various elements, lending a unique sense of place</p> |                                                                                           |
